

IAM RoadSmart AGM Thursday 14 November 2024

Membership

To consider, and if thought fit, pass a resolution(s) in accordance with article 9.2.2 of the IAM’s Articles of Association for an optional bolt-on charity donation, instead of a membership fee increase for Ordinary Members and Fellow Members.

This document is the formal recommendation to freeze membership fees from 1st April 2025 to 31st March 2026, instead encouraging members to make an optional bolt-on donation. This donation would be in addition to their annual fee, further contributing to the work of the charity in road safety education, helping the charity extend its reach and impact - this includes developing new training resources, conducting public awareness campaigns, and advocating for safer driving practices across communities.

Figure 1 details the frozen membership fees for 2025/26:

Membership level	Associate	Fellow paying by Direct Debit	Fellow non-Direct Debit payee	Full member paying by Direct Debit	Full member non-Direct Debit payee
2025/26	£39	£65	£70	£47	£52

Membership Year
Figure 1

2024/25 was our year of transformation, with the year ahead focusing on growth. As we pursue a changing direction with digital at the core, your loyalty and support for the charity is important to us.

Each donation will help us transform and sustain the charity for many years to come. From new products and technologies, to lobbying the government to make a change in road safety education – our commitment to reducing deaths on the roads continues.

We hope your passion for Advanced driving and riding, and IAM RoadSmart, continues for years ahead - thank you in advance for helping us create a warm and welcoming community for all, as we work to grow our reach in road safety education and awareness across the UK.
